

## Urban Agriculture - how to learn from Paris

**Moderator:** Jürgen Preiss, City of Vienna, Department of Environmental Protection

**Assistant:** Katharina Schwarz

**24.9.2020**

**15:30 – 15:45:**

Presentation of the workshop and its aim

**16:00 – 16:30:**

Round of Introduction: Who is participating, what is your interest in the workshop?

**16:30 – 17:30:**

**Presentation of City of Paris:** Urban Agriculture (focus on rooftop-agriculture as an example of how to green up our cities – legal, economic, practical, technical introduction)

**25.9.2020**

**9:00 – 9:30:**

Welcome, Questions and answers concerning the presentation of the previous day.

**9:30 – 11:30:**

- a) **Start of discussions on possible project designs:** how could we design specific urban agriculture projects in Vienna (on the example of the “Vienna General Hospital” and/or other possible examples, brought by the workshop-participants).
- b) **Cooperations** – which kind of cooperation could be established specifically as a form of European-wide practical cities-advisory network? For example in the realm of the “Organic Cities Network Europe”.
- c) **Practical Projects Design:** Set of UA-projects in different European cities – realized within a research project design (for example within the program EUROSTARS/Eureka)

**11:30-12:00:** protocol

Lessons learned. How to proceed further?
