

Urban Vertical Green 2.0

Moderators: Oliver Weiss, Irene Zluwa

Assistants: Elisabeth Wesely + Andrea Wieser

24.09.2020 + 25.09.2020

The aim of the project is the establishment of facade greening

- a) What technical weaknesses, regulatory obstacles, missing links and service chains are there?
- b) Problem identification and development of alternative irrigation techniques, further fields of action, knowledge of where there is still a need for development and research in cooperation with external partners

14:30 – 14:45: Workshop-Intro

14:50 – 15:50: Troubleshooting, identification of challenges
→ List of specific problems including examples

15:50 – 16:05: Break and survey

16:05 – 17:05:

- a) Which requirements have to be created?
E.g. Problems with irrigation technology → Overview of what already exists →
Find solutions to solve problems
- b) Which measures have to be defined?
What has to happen Who?
How?
With who?

17:05: Farewell
